Landschaftspark Herzberge

Invitation 2

If the landscape were music

Find a place where you'd like to spend a little time. Listen carefully to the sounds around you. Find a sound that attracts you. Now watch the movements (of the trees, the birds, the wind...). Now keep that sound and that movement in mind. If they were a piece of music, what would it be? Why? Take some time to reflect and let yourself be transported by this music. When you're ready, look up, the clouds are moving, changing shape, and disappearing. Imagine that they're moving to the beat of the music you chose. Do their movements go well with this music? YES/NO. Why? When you're ready, it's time to get up and get back to life :)

KulturNest e.V.

Placing Nature at the Centre of Culture in Europe

KulturNest e.V. is a Berlin-based non-profit organisation that believes in the power of bottom-up initiatives, creativity and civic participation to create meaningful social change. We design and facilitate learner-centred, non-formal educational experiences that connect people with one another, with nature and with their own capacity to shape the world around them. Our interdisciplinary team of artists, forest therapists, facilitators, youth workers and other practitioners works collaboratively with communities to create empowering spaces for learning, co-creation, wellbeing and social connection.
